

Please join us for our upcoming Next Gen Data Center User Group meeting. Enjoy time with your peers to share, collaborate, and network.

Many IT organizations are bracing themselves for the IT transformation needed to address next-generation business demands and service levels.

By attending this meeting, you'll have the opportunity to:

- Engage in an open discussion with your peers about their experiences driving integrated infrastructure
- Meet and network with fellow data center professionals
- Chat with Cisco data center and server engineering leaders to get answers to your questions

Agenda

- Cisco UCS Management Extravaganza
- Cisco UCS PowerTool – Making the mundane irrelevant (demo)
- Cisco UCS Performance Manager – Tell me where it hurts (demo)
- Cisco UCS Director – Maintaining relevance and delivering business value (demo)
- Cisco ONE for DC

Bring your own unique PowerShell script or a UCS Director workflow and discuss it to be entered for an Amazon \$50 gift card.

Cisco UCS with Intel® Xeon® processors

[Register Now](#)

Wednesday, December 9, 2015
11:00AM - 2:00PM

Cisco Office
10111 Richmond Ave, Suite 450
Houston, Texas 77042-4217

Join the Cisco UCS discussion outside of the group meeting at the [Cisco UCS Management Space](#). This space allows you to further engage with your peers and Cisco experts and get additional Cisco UCS-related content.
