Table of Contents

List of Tables

1   Introduction

This document provides instructions for entering license keys into Tandberg Endpoints.

1.1   Release Notes

Table 1 - Release Notes

Technical Change	Title(s) of Affected Section(s)	Changes Made By	Date
Initial Release		Carl Dunkleberger	7/13/12

2   Logging into the TMS

To create log into TMS:
1. In the browser window, enter the IP Address of the TMS followed by /tms.
    Ex. 14.80.97.182/tms
2. Enter the credentials for administrator.

3   Getting to the Option Key Page

To get to the **Option Key** page:
1. Click **Adminstrative Tools (1)**.
2. Click **Configuration (2)**.

3.1   The Licenses and Option Keys Page

The **Licenses and Option Keys** page:
*   Shows the effect of the licenses entered **(1)**.
*   Shows the licenses entered into the TMS **(2)**.
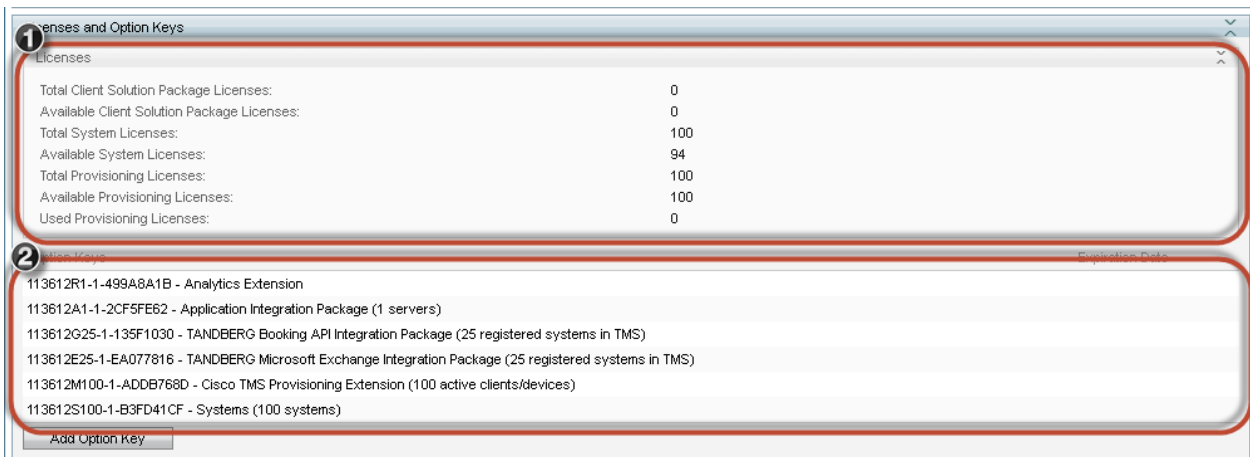

3.2 Entering the Release Key

The **Release Key** must be entered into the **TMS Release Key box (1)** before adding option keys.On the **General Settings** page:

1. In the **TMS Release Key** box **(1)**, enter the release key.
2. Click **Save (2).**

3.3   Adding an Option Key:

***The release key must be entered before adding option keys.***

The **General Setting** window above shows that a valid release key has been entered

If the serial number (S/N) states Trial, a release key must be added (i.e., The arrow in the following example points to the serial number (S/N), which does not say "Trial." The green check mark indicates that it is alright to proceed).

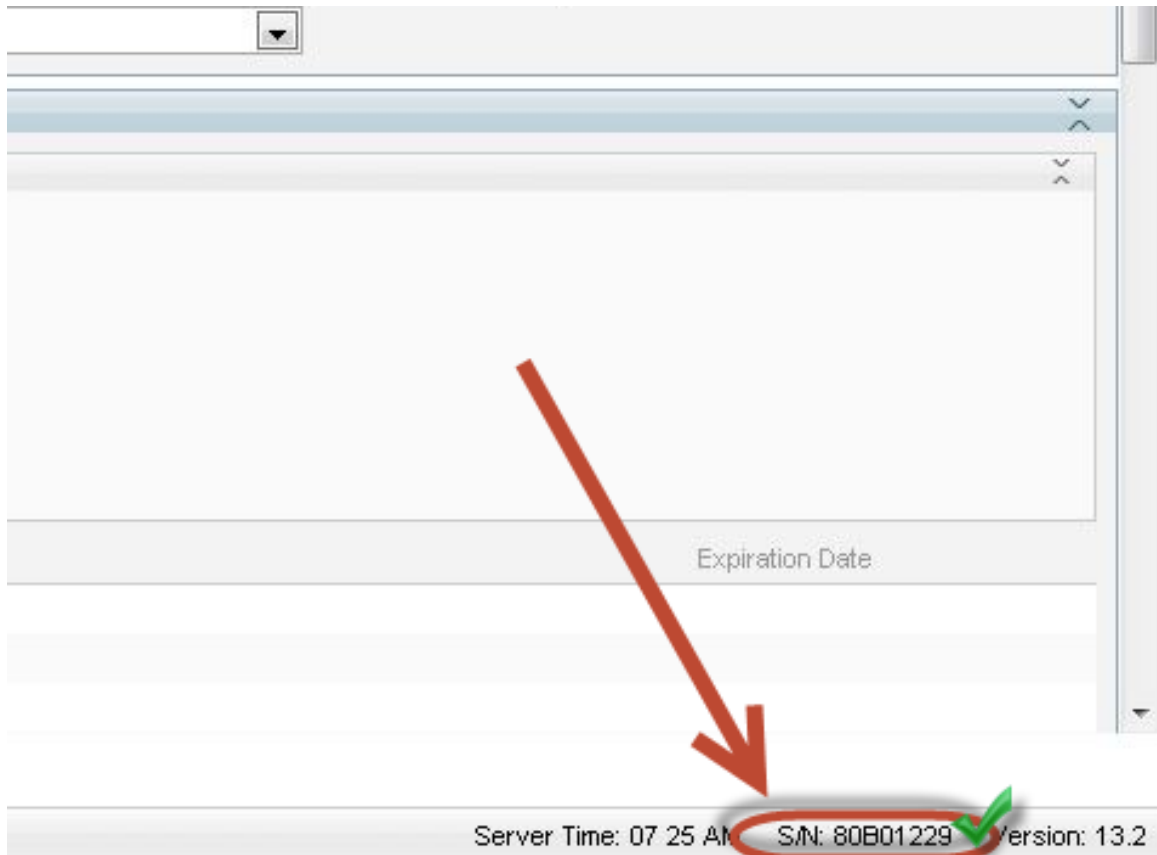

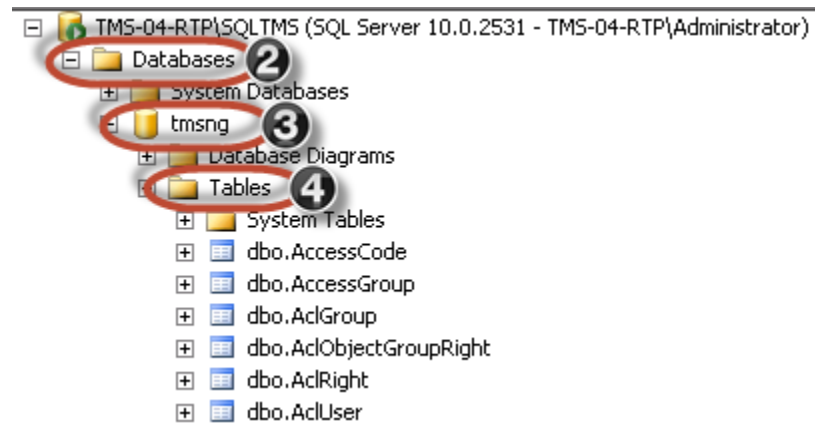

In the **Option Keys** section:

1. Click **Add Option Key (1).**
2. In the **Add Option Key** box **(2)**, enter an option key.
3. Click **Save (3)**.

6
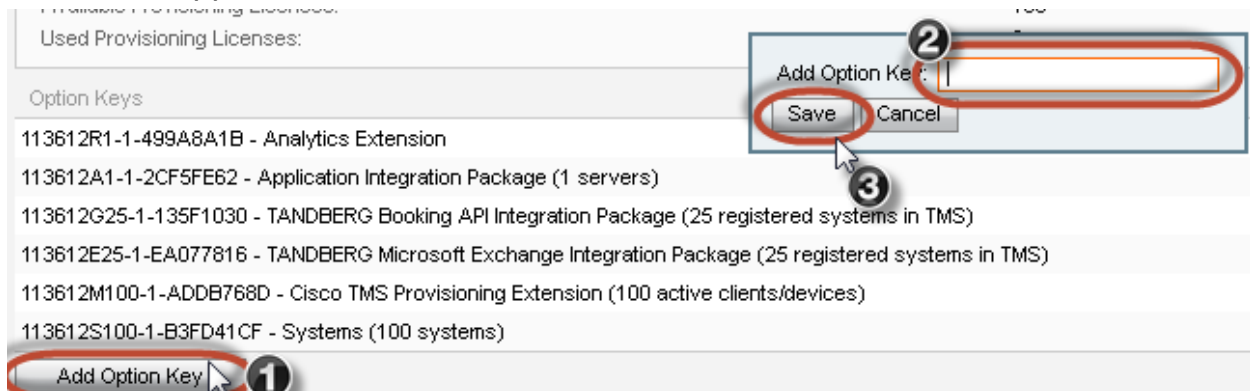

4   Removing TMS Licenses
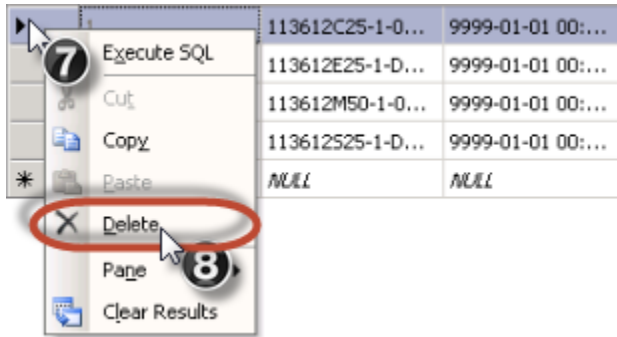

To remove TMS licenses:

1.   Open **SQL Server Management Studio (1)** (if you don't have, you need to download).
2.   Expand **Databases (2)**.
3.   Expand the **tmsng** database **(3)**.
4.   Expand **Tables (4)**.

5.   Find **dbo.OptionKeys (5)**.
6.   Right click on **dbo.OptionKeys (6)** and select **Edit top 200 rows**.

7. Highlight the row with the option key you want to delete.
8. Right click and select **Delete (8)**.

Within a few minutes after this is done, you can look in TMS to see that it is removed or updated.
