

MARS CUCM Wallboard

Parsec’s MARS CUCM Wall Board integrates with Cisco CUCM.

The application does not require a contact center UCCX or UCCE.

If calls are queued at CUCM’s Hunt Pilot/Hunt List and routed to agent/s based on configured routing logic then MARS CUCM Wallboard displays the Hunt Pilot/Hunt List statistics and Agent Phone status (Idle/Busy)

MARS CUCM Wall Board monitors the enterprise PRI line/s also and provide online status provided the gateway is configured as MGCP.

The screenshot displays the PARSEC Telesystems interface with two data tables:

Hunt Pilots Real Time Monitoring

PILOTS	CALLS_IN_Q	LG_MEMBERS_AVAIL	LONG_CALL_WAIT_IN_Q	Q_CALLS_ABANDONED	Q_CALLS_RING_NO_ANS
2000	2	1	0	0	4
2001	2	2	1	0	4
2002	2	3	2	0	4
2003	2	4	3	0	4
2004	2	5	4	0	4
2005	2	6	5	0	4

Hunt List Real Time Monitoring
